Growth in Student Count:

Growth figures for districts requesting an advance based on 40th day growth have been included on page 2 of the Apor 55-1 report as an adjustment to the Revenue Control Limit and District Support Level. The Formula for Growth in Student Count report (Apor 55-2) calculates growth based on your 40th day Average Daily Membership (ADM) data received to date. The Special Education Census data, which is used as the 40th day Special Education count on your report, is also reflected in your growth calculation. 100th day growth will be calculated for the June 15, 2000 payment. All districts that have submitted a Growth Statement of Action and revised their budget to include growth based on the 100th day will be included in the June 15, 2000 Apor 55-1 calculation.

June 15, 2000 Equalization Assistance

The June 15, 2000 Equalization Assistance calculation and payment will include, if budgeted for on the revised budget, the 100th day growth, the increase for the composite score, and for Type 03 districts any adjustment to the tuition out amount. Please remember that for these items to be correctly reflected in the June 15, 2000 calculation the Growth Statement of Action, the Composite Score Statement of Action, and the Type 03 District Tuition Out Worksheet must be received prior to June 1st.
